AMENDMENT

Sir:

In response to the Patent Office Action of December 29, 2005, please amend the above-identified patent application as follows:

IN THE CLAIMS

Cancel Claim 2 without prejudice.

Claim 42, line 4, after "having", cancel "a b asem" and substitute therefore --- a base, ---.

Claim 52, line 1, change "comprisng" to --- comprising ---.

Claim 55, after "and", insert --- having a ---.

Claim 56, Line 1, change "53" to --- 52 ---.

REMARKS

The objections to Claims 42, 52, 55 and 56 have been noted and these claims have been amended to overcome the objections and, as now presented, are each believed to be proper and allowable.

The objections to the drawings have been noted. However, reconsideration is requested of these objections. In making the objections, the Examiner suggests that the concave and convex surfaces recited in Claims 15 and 16 are not shown. However, FIG. 3 clearly shows such surfaces. therefore, the Examiner is respectfully requested to reconsider and withdraw this objection. The Examiner also suggests that the material forming lettering is not shown. However, again, the contoured surface of FIG. 3 could easily be such lettering. Therefore, the Examiner is requested to reconsider and withdraw this objection. Accordingly, the drawings, as now presented, are believed to be proper and the Examiner is requested to reconsider and withdraw the objection.
